GOD IS

CHILDREN'S BIBLE LESSONS

This material is designed to be a catalyst, inspiring you to combine with the creativity of the Holy Spirit to produce a weekly program that will be effective in your specific area.

As you plan your sessions, earnestly seek the guidance of the Holy Spirit, so that you can keep the needs of your children uppermost in your program. Add extra ideas and material to your file weekly so that you can build up a valuable resource folder for future reference.

The material is sequenced in such a way that you will be able to build each week upon the foundation of the previous one.

TEAM WORK

*Whatever job God gives you to do for Him,
the minimum training required is to meet with Jesus daily,
give Him what you have, learn from His Word,
and get involved as part of a committed team.*
